**Structure:**  
 20 Gauge Galvanized Ultra Steel Framing:  
 Our Ultra Steel channel is more ridged than traditional galvanized steel channel.

**Cement Backer Board:**  
 ¼" Cement backer board is used for complete structure and floor.  
 Does not rot, warp, grow mold, or deteriorate, when subjected to water.

**Electrical:**  
 No electrician necessary... All of our Islands come standard with our Plug and Play electrical package.  
 (1) 115 volt GFCI protected outlet (Interior)  
 (1) 115 volt GFCI protected outlet / switch with weatherproof cover (Exterior)  
 Additional outlets are available.

**Two-Tone Countertop Design:**  
 Add a touch of style to any countertop with our Two-Tone option.  
 Combine ceramic, natural stone or travertine tile for that one of a kind look and feel.

**Rock and Stone Exteriors:**  
 With more than 5 colors and styles available, matching existing landscaping detail is a breeze. For even more originality, mix and match Ameristone, Rock or Stone exteriors to really set your design apart from the competition.

**Lighting:**  
 Create your own finishing touch. Multi Colored LED Lighting options are a great way to customize Outdoor Kitchens, Fire Benches or Fireplace designs.  
 You decide the quantity and locations.

**Bottom Toe-Kick:**  
 Where style meets function. Our Toe-Kicks are 3 ½" tile trim that completely surround the base of our Islands and Fire Benches for enhanced appeal and protection from guests footwear.

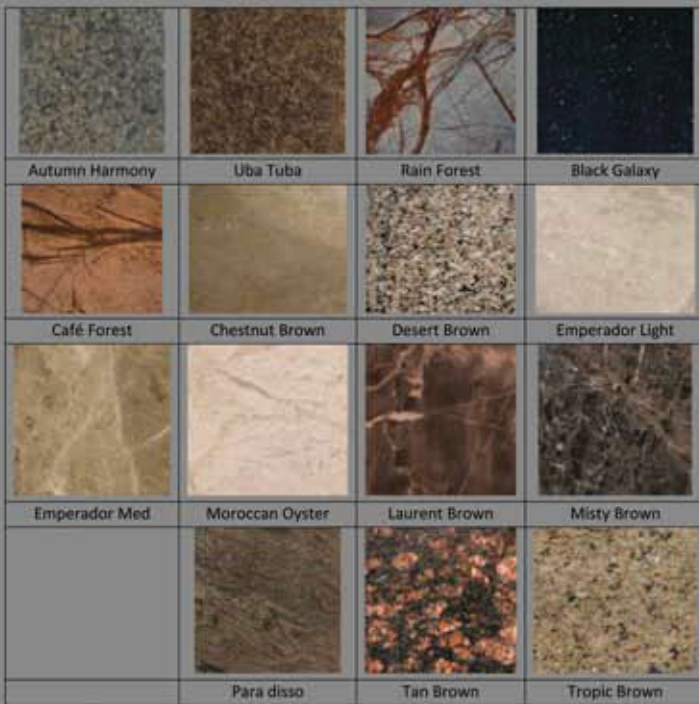

Porcelain Tiles

Stucco
